ABDULLA SUBHI NAJEEB RUZIEH

A highly motivated and proactive person with excellent communication and leadership skills. I possess excellent verbal and written communication skills and I am able to relate to a wide range of people. All these skills have been enhanced during all the work experiences I have gained over the years and through working with multinational cultures. My research interests cover people and process-related aspects of logistics and processes management. including how organizations and people work in the context of planning, resources management and skills development.

▪ **Core competencies**

Strategic planning for supply chains	International operations	Contract law	Risk management	Process management
Enterprise systems	Warehousing management	Material management	Cost control and reduction	Research and data collection
Resources planning and management	Procurements	Quality control	Business process re-engineering	Team motivation
Change management	Business development	Processes improvement	Financial planning	Scheduling and time management

Recent Projects:

- Business Process Improvement and Optimisation for Twiga Company
- Supply chain evaluation and strategic analysis for Morrison group – UK.
- Disputes resolution for the case of Grindley lathes
- Investigating material management-related process challenges and potential critical success factors for the construction industry
- Finance and Human Resources Integration towards Successful Organizations - Case Study- Balfour Beatty and Galliford Try Companies.
